Garden shortcuts; easy parties; what we're excited for this season

Freewheeling

Linus bikes let you tool around the neighborhood the way Mom and Dad used to. The simple cruisers, created by two designers in Venice, California, are comfortable, elegant, and refreshingly doodad-free. Available in four models from one to three speeds (the 3-speed Mixte is pictured), these are your wheels for spring. From \$389; linusbike.com
